Simple and accessible apps like OneNote and Microsoft Teams in Office 365 for Education give classrooms access to a world of options to create and collaborate, building the skills for the jobs of tomorrow.

Digital inking gives you the opportunity to create something new every day with passion, collaboration and the open flow of ideas from one person to the next. Microsoft keeps bringing in new ways to make this possible. Through Office and Windows, Inking allows you to harness the digital world with the power of touch to create in more natural ways to let Office translate your vision into reality. Mark up anything in front of you and easily share it with others or stay on the same page no matter where you are. As fast as you are with your pen, Office knows what you mean and makes it happen. Unleash your creativity with Office, Ink and Windows because everything you need to achieve something that truly matters is right at your fingertips!
